Lot 1

Calico Creek **Diamond Stiletto**

3/23/2017

Commercial Boer Doe Kid

Sire - 3MB Titanium
Dam - Velvet Stiletto

**100% of the proceeds from this Lot
will be donated to the SGBA**

Here's the fanciest coloured doeling from the 2017 crop. Born and raised a triplet with 1 & 1 teats.

Diamond Stiletto is a lot like her dam, designed for productivity. The dam, Velvet Stiletto, is a no nonsense, hardy, productive doe that raises triplets year after year and never sees a kidding pen. She also has a proven show career.

The sire, Titanium, is like all the 3MB bucks I've had over the years... hardy and tough as nails and their daughters always milk.

Not only is this a great way to add a pretty doeling to your herd but also help out the SGBA as 100% of the proceeds go towards this event.

She sells as commercial but seller is willing to register at 75% which will be at the buyers expense.

She is backed by production records, show wins and many generations of EX animals.

Purebred Kiko Buck Kid

Sire - LPR Bryke
Dam - LPR Camryn

BW	7lb 6oz
65 WT	32 lb

This buckling is ranch raised with minimal inputs and no grain! Our goats are raised on hay, pasture, salt and minerals only! This buckling is a triplet with an average daily gain of .46 lbs/day His Sire is a triplet also and is from a prolific bloodline noted for throwing triplets. Byrke has only needing his hooves trimmed once and a deworming once in the 4 years we have owned him. The Dam is one of our best does with a large udder. 5 out of 5. She has great motherly instincts and throws us the biggest kids every year. Her kids always hit the ground running when born. If you want a herdsire that will bring you kids with slow hoof growth, better parasite resistance and more vigorous kids as well as improving your number of multiple births, this is a good choice.

Pepperpot PAD Wonder-Whitney

2017

Purebred Saanen Doe Kid

Sire - Pepperpot CA Dictator
 Dam - Pepperpot PTR Whimsical 2

This doeing is a result of combining all four of my herd's cornerstone does. Whimsical, Heliga, Ramoth and Destiny. This has been my mission for the last several years as I truly believe each of these does brings traits I admire to the table.

Her dam Whimsical 2 is a yearling doe who I see a great future for here at Pepperpot Acres. I absolutely love her height and width to rear udder and her GA and smoothness of blending is what the "W" line is known for here. Her Littermate brother was one of my main sires last fall and some outstanding consist kids on the ground and I am keeping one son as my main sire this fall. When asked about participation in this sale to promote our thriving industry I knew within minutes that this kid was my pick to represent Pepperpot.
